🕒 SUMMARY

I'm a front-end-focused web developer who builds modern web sites and applications driven by an insatiable thirst for knowledge, a need to constantly challenge myself, and a desire to produce work that is cleanly coded and focused on usability.

📁 WORK EXPERIENCE

○ From **AUGUST 2016 to OCTOBER 2017**

FRONT END ENGINEER

The Program

Key Responsibilities & Duties

The Program is a fast-paced agency servicing lifestyle-brands like Nike. While at there I built solutions for clients utilizing Craft CMS, WordPress, React/Redux.

○ From **FEBRUARY 2016 to JULY 2016**

WEB ENGINEER

10up

Key Responsibilities & Duties

While at 10up, I provided day-to-day WordPress support for several high profile, high traffic clients; Provided detailed plans of action and estimates as required. Supported a Phonegap app build in Ionic/ Angular.js

○ From **FEBRUARY 2013 to JANUARY 2016**

WEB DEVELOPER

Doejo

Key Responsibilities & Duties

While at Doejo, I was a full-stack developer in fast-paced, agency/start-up environment. I developed custom web solutions in various platforms including WordPress, Ruby On Rails, and Express/Node; Built SPAs in Angular.js, Node.js. Consulted with sales on technical recommendations for outgoing proposals.

○ From **MARCH 2012 to FEBRUARY 2013**

FREELANCE WEB DEVELOPER

Self-employed

Key Responsibilities & Duties

While freelancing I worked with small businesses, agencies and startups to develop web solutions on platforms including WordPress, Ruby on Rails and Sinatra.

○ From **JANUARY 2010 to MARCH 2012**

WEB DESIGNER

Homes.com / Homes Media Solutions

Key Responsibilities & Duties

Worked hands on with clients to develop personalized templates. Set the coding standard and authored templates used by department. Organized and conducted training in CSS3, Javascript & JQuery.
